Rep. Fine Hosts Logan County Farmers

GLENVIEW, Ill. — State Rep. Laura Fine, D-Glenview, welcomed farmers from central Illinois for a tour of her district as part of the Illinois Farm Bureau’s Adopt-A-Legislator Program. Fine and members of the Logan County Farm Bureau visited and learned the history of The Glen, the Grove, and the Holocaust Museum. They also discussed issues facing the state, central Illinois and our district.

“It was wonderful being able to share unique parts of our district with our guests,” Fine said. “Days like this help build important relationships. I look forward to visiting Logan County farmers later this fall during harvest and learning more about their work.”

Adopt-A-Legislator was created to cultivate understanding between farmers and suburban legislators.
