Fine Sworn in as State Representative

GLENVIEW, IL – At Wednesday’s Illinois House of Representatives’ Inaugural Ceremony, state Rep. Laura Fine (D-Glenview) officially pledged to serve her constituents as State Representative for the 98th General Assembly.

“Illinois is faced with many serious challenges, and we must make it a priority to get the state back on solid financial footing and create a more business-friendly environment,” said Fine. “It is an honor to take the oath of office, and I look forward to being a strong advocate for our community in Springfield.”

Coming into office at such a difficult time for the state, Fine is committed to streamlining government spending and backing efforts to prevent future budget shortfalls. As a former college instructor, she will also support initiatives designed to enhance higher education opportunities.

“In addition to supporting efforts to control wasteful spending in Springfield, I am committed to making higher education more affordable and accessible, helping to give our young adults the tools they will need when they graduate and are competing for jobs in the global market,” said Fine. “Improving the workforce will help grow our economy, and I also plan to support legislation designed to make our environment cleaner and safer for our families.”

Fine announced plans to open her local 17th House District constituent service office in Glenview. It will be located at 1812 Waukegan Road, Suite A in Glenview.

In addition to visiting the office, constituents may reach Rep. Fine by calling (847) 998-1717 or by e-mailing RepFine@gmail.com.
